

Quick Installation Guide

1520 15" All-in-One Touchcomputer

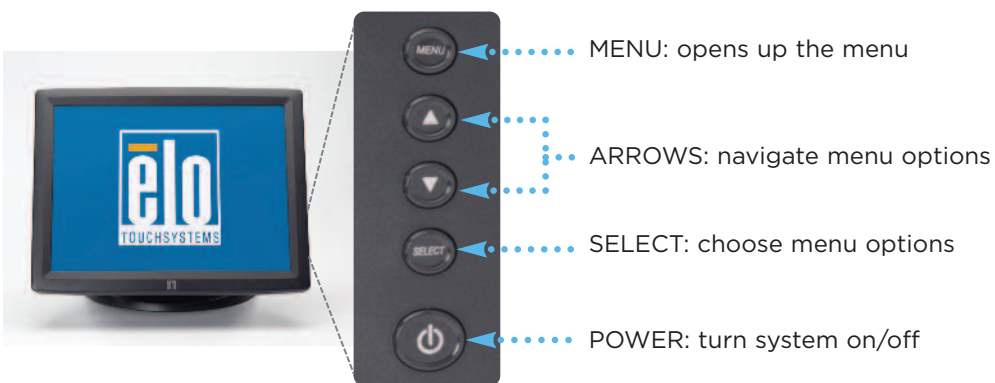

1 CABLE CONNECTIONS:
For easiest access, place monitor screen-side down (place on soft cloth to prevent scratches). Remove two security screws with Alan wrench (tool provided) and slide cover off.

3 After all appropriate cables are attached, turn on power to the Touchcomputer. Make changes to the screen image with the on-screen buttons (see below).

2 After cables are attached to the Touchcomputer, slide cover on and route cables through the opening in the cable cover. Re-install security screws.

ON-SCREEN DISPLAY BUTTONS

THE 1520 15" TOUCHCOMPUTER when combined with an operating system operates as a standard PC. Touch the screen to navigate, no mouse is required.
