2.0 DECLARATION

Elo TouchSystems, (Elo) hereby declares that the RoHS products listed on page #1 are in compliance with all referenced documents listed on page #3. These RoHS compliant products may contain an exempted material as noted in the Annex of the RoHS Directive (2002/95/EC). Elo also hereby declares that Elo and its manufacturers for the RoHS parts listed above have implemented the following:

- RoHS compliant as of March 2006.
- New part numbers issued to distinguish non-RoHS parts from RoHS parts.
- Green RoHS stickers attached to shipping cartons.
- All components, sub-assemblies and processes changed to RoHS compliant.

3.0 TEST REQUIREMENTS

Elo also confirms that said products meet or exceed all internal and manufacturers test requirements; furthermore, the same said products also meet or exceed all published specifications posted on Elo's website. For information on Elo's 1927L desktop monitor products, go to:

<http://www.elotouch.com/products/lcds/1927l.asp>

4.0 DISCLAIMERS

This information is provided based on reasonable inquiry of our suppliers and represents our current actual knowledge based on the information provided by our suppliers. This information is subject to change. This information does not in any way modify existing purchase specifications or existing contractual or other agreement terms between Tyco Electronics (or its affiliated companies) and its customers.

Because Tyco Electronics and its affiliated companies, such as Elo TouchSystems, are required to maintain an inventory of non-compliant products targeted for specific applications that are exempt from RoHS (e.g. medical), dual versions (compliant and non-compliant) of products are required. For Elo TouchSystems, this applies strictly to custom touch monitor products. Therefore, Tyco Electronics and Elo TouchSystems cannot make a general statement that it will provide only RoHS compliant products in the future. Rather, Tyco Electronics and Elo TouchSystems can guarantee that RoHS compliant products will be supplied, provided you order products identified as RoHS compliant, by contacting Elo directly, from Elo's website (www.elotouch.com), or from the Tyco Electronics catalog.

Furthermore, users are advised to ensure that this information is brought to the attention of the employees, agents, or contractors handling this product. Distributors of this product are advised to forward this document, or the information contained herein, to their purchaser. Elo TouchSystems' obligations shall be only as set forth in Tyco Electronics' standard terms and conditions of sale for this product and in no case will Tyco Electronics (or its affiliated companies) be liable for any incidental, indirect or consequential damages arising out of the sale, resale, use or misuse of the product. Users of Tyco Electronics products should make their own evaluation to determine the suitability of each such product for the specific application and to establish safe handling and installation procedures.
