Application Submission

Elo PayPoint iDock to Apple AppStore

Overview

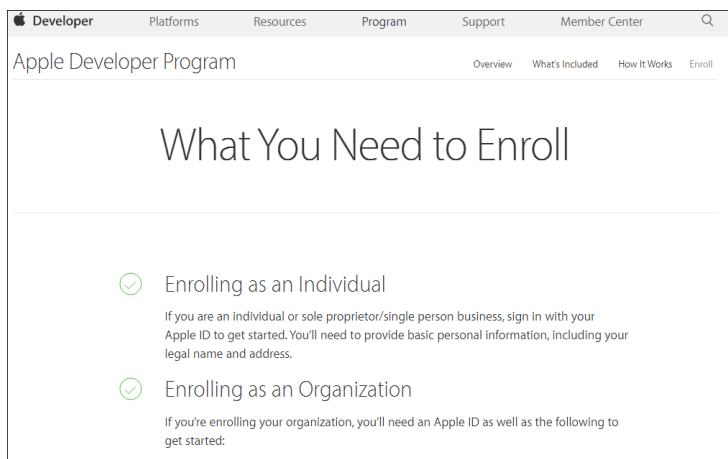

Thank you for developing an iOS app for use with Elo Paypoint iOS hardware. The Elo Paypoint iOS hardware is compatible with iPad 4, iPad Air, and iPad Air 2.

Elo Paypoint iOS Hardware is an Apple MFi accessory. All iOS Apps that communicate with Apple approved MFi accessories must register their application with Apple. Since Elo is a licensed MFi manufacturer, Application Developers will need to register with Apple before submitting their App to the iTunes store. This registration process will link your application to the Elo Paypoint iOS hardware.

To Register with Apple:

1. Complete development and testing of your application.
2. Prepare your application using the standard Apple App submission process.

<https://developer.apple.com/app-store/submit/>

3. Once registration with Apple is complete, please submit the below information to Elo.

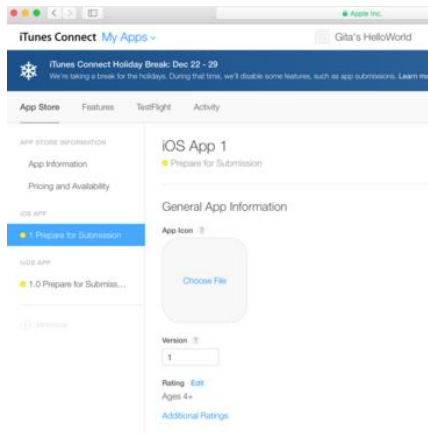

App Developer Basic Information	
Name	
Version Number	
Planned Release Date	
App Store Category	
Bundle Identifier	
Protocol Names	
Functional Overview	
Name of Developer submitting App to the App Store	
Submit the following information to Elo, by emailing the information to elosystemsteam@outlook.com	

3. Specify protocol names that match the device.

The *UI Supported External Accessory Protocols* key in the app's Info.plist must contain one or more names that match the device's protocol names.

Elo's protocol name is: com.elotouch.protocol

4. Submit the MFI PPID for the device within *iTunes Connect* to complete your AppStore submission. Once you have this information from Elo, update your portal and submit your App to AppStore.

Place the device's MFI PPID within the apps metadata *Review Notes* field.

Elo's MFI PPID's:

PPID for Ipad Air: 147534-005

PPID for Ipad Air 2: 147534-008
